- Public Sector Solution Provider

THE INFUSIONPOINTS APPROACH TO FedRAMP 20x

•▶ ADVISORY-FIRST STRATEGY ◀◀

We begin with a focused gap analysis to determine your readiness for FedRAMP 20x. Our experts help you define scope, select the appropriate AWS region, and establish a realistic submission timeline.

•▶ PRE-ENGINEERED COMPLIANCE FOUNDATIONS ◀◀

Rather than starting from a blank slate, *InfusionPoints* delivers architectures and security controls aligned to FedRAMP baselines, designed to support 20x automation and scalability from day one.

•▶ AUTOMATED EVIDENCE & KSI VALIDATION ◀◀

InfusionPoints supports automated collection and validation of KSIs, producing machine-readable evidence packages that align with FedRAMP 20x expectations, reducing audit friction and manual rework.

•▶ CONTINUOUS MONITORING, BUILT IN ◀◀

Security and compliance does not stop at submission. *InfusionPoints* provides continuous monitoring, vulnerability detection and response, and operational visibility to sustain authorization over time
